Comic Neue

Designed by Craig Rozynski, Hrant Papazian

About

Comic Neue is an original reinterpretation of the classic, Comic Sans.

Comic Neue aspires to be the casual script choice for everyone, including the typographically savvy. The squashed, wonky, and weird glyphs of Comic Sans have been beaten into shape – while maintaining the honesty that made Comic Sans so popular.

Don't miss the project homepage, comicneue.com

The Comic Neue project was initiated by Craig Rozynski, a designer living in Australia and Japan. To contribute or report any issues, see github.com/crozynski/comicneue

Designers

CR Craig Rozynski
Principal design

HP Hrant Papazian

## Choosing type

View all articles

When you have some text, how can you choose a typeface? Many people—professional designers included—go through an app's font menu until we find one we like. But the aim of this module is to show that there are many considerations that can improve our type choices. By setting some useful constraints to aid our type selection, we can also develop a critical eye for analyzing type along the way.
